

2016 International Conference on Interactive Mobile Communication Technologies and Learning

Next Generation Mobile Technology, Applications, and Devices

Call for **Special Sessions**

2016 International Conference on Interactive Mobile Communication Technologies and Learning

San Diego, USA, 17-19 October 2016

<http://www.imcl-conference.org/imcl2016/>

Special sessions, held in parallel with the general conference, are an integral part of the conference. They provide researchers in focused areas the opportunity to meet and present their work, and offer a forum for interaction among the broader community of technology-enhanced learning, and online engineering world-wide. Special sessions papers are required to meet the same standards as papers in the general conference and are published in the same conference proceedings.

Topics of interest are in all areas of mobile learning and similar to main conference topics.

Proposals must be submitted to our submission server (<https://www.conftool.net/imcl-conference/>). Special Session papers will be reviewed by at least two members of the special session's program committee, and acceptance decisions will be made by the conference program co-chairs and Special Sessions Chair. Organizers of special sessions will work closely with the Special Sessions Chair (**Alireza Farahani**, afarahan@nu.edu), and are expected to respond promptly and communicate regularly in order to maximize the potential impact of the track. Proposals must be made using the special track template. Please include the following information in all proposals:

1. **Title** of the special session.
2. Names and contact information for the **special session organizer(s)**
3. Names and affiliations of those who have so far agreed to serve on the **special session's program committee**.
4. Anticipated number of submissions and accepted papers. A special session may have **up to 5 papers** regularly. Special session that fails to attract sufficient papers will be merged into the general conference or suitable alternative session.
5. A draft **call for papers**.

A special session will include at least **5 papers** and the review process is under the responsibility of the person organizing the special session (i.e. session chair). In that case we offer a **US\$ 390** discount in the registration fee to **one** special session chair.

Important Dates:

20 May 2016 Special Sessions proposal submission

23 May 2016 Special Sessions notification and announcement

Special session complete papers deadlines will be the same as IMCL2016 main conference.
